TECHNICAL CATALOGUE

ELKO EP

We are traditional, innovative and purely Czech development manufacturer of electronic devices and we have been your partner in the field of electroinstallations for 26 years.

ELKO EP employs about 330 people, exports its products to more than seventy countries, and has representatives in thirteen foreign branches. Company of the Year of the Zlín Region, Visionary of the Year, Global Exporter of the Year, Participation in the Czech TOP 100, these are just some of the awards received. Still, we are not finished. We are constantly striving to move forward in the field of innovation and development. That's our primary concern.

Millions of relays, thousands of satisfied customers, hundreds of our own employees, twenty six years of research, development and production, thirteen foreign branches, one company. ELKO EP, innovative - a purely Czech company based in Holešov, where development, production, logistics, service and support go hand in hand. We primarily focus on developing and manufacturing systems for building automation in the residential, commercial and industrial sector, a wide range of Smart city facilities and the so-called Internet of Things (IoT).

Facts and stats

WE ARE

Timers/Relays

www.elkoep.com/relay-modular-electronic-devices

A wide range of electronic modular devices, which bring new possibilities to home and office control, monitoring and security, as well as to industrial process control: time relays, installation contactors, staircase automatic switches, time switches clocks, dimmers, thermostats, power supplies units, control and signalling devices, GSM gates, etc.

Protection relays for industry

www.elkoep.com/protection-monitor-relay

Every household, every object and every machine needs a monitoring relay. There are several reasons why, overvoltage, under voltage, phase failure, asymmetry, frequency, or power factor.

iNELS Air – IoT devices

www.elkoep.com/iot-products

The new iNELS Air product line responds to the dynamically developing network IoT (Internet of Things). These networks enable devices to communicate safely, over long distances and are optimized to minimize power consumption. The product group includes sensors for communication on the Sigfox, LoRa and NB-IoT protocol.

Wireless electroinstallation (RF)

www.elkoep.com/wireless-rf-control

A unique wireless control system providing you perfect control over your home! The RF Control system enables you to control functions such as heating, lighting, electrical appliances and window shutters, all with a single touch. No wall cutting, fast and easy installation, exclusive design of wireless wall switch buttons and other components.

Wired electroinstallation (BUS)

www.elkoep.com/inels-bus-system

The BUS system offers a unique solution for new installations (refurbishment) in family houses, hotels and villas. It offers a wide range of functions for both automation and comfort.

Energy management

www.elkoep.com/energy-management

Measuring energy consumption in the home or in larger areas is an increasing trend. Our products provide measurement with three different technologies – using a BUS or wireless and with the IoT.

Wireless Retrofit Hotel (HRESK)

www.elkoep.com/hotel-hresk

Hotel Room Energy Saving Kit - Solutions for hotel rooms based on wireless technology is designed to function in existing hotels. It is possible to simply elevate the existing electrical installation to a higher level without long-lasting construction modifications.

Hospitality Hotel (GRMS)

www.elkoep.com/inels-hospitality

Guest Room Management System – The BUS system is designed mainly for hotels and offers comfortable and easy control of hotel rooms, reception and restaurant.

Building management system

www.elkoep.com/bms

Building Management System is a comprehensive solution for monitoring, and controlling even the most complex of building systems. You can monitor everything on your computer monitor or tablet in the comfort of reception or office.

Lighting control

www.elkoep.com/lighting-control

A sector that offers complete control over all lighting devices. From switching, dimming to controlling your favourite DALI luminaires. Everything can be controlled with a connection to iNELS wired or wireless technology.

Multimedia

www.elkoep.com/av-multimedia

Here you can find extensions for our iNELS system and not just for it. Lara Music Players, Intercoms and Door Communicators, Application Communication Servers and 3rd party applications.

Switches and sockets

www.elkoep.com/logus90-products

We offer you exclusive switches, sockets and accessories in a standard plastic or metallic design. However, there are also charming luxury frames from purely natural materials such as genuine wood, metal, granite or tempered glass. Be special!

Lighting sources

www.elkoep.com/lighting-sources

Are you looking for a bulb for your chandelier? In this section you will find among the most common types of bulbs also LED strips and other LED sources, power transformers and installation accessories such as ALU profiles, diffusers.

As when we painted our future housing on paper with crayons when we were young, the LARA configurator allows us to indulge in this hobby to this day. Do you like timeless design of frames made of natural materials? Would you like glass switches and controls? Do not you know if they'll be in tune with the colour of your walls? Will they fit comfortably into a given area?

lara.inels.com

Try the LARA configurator online. You can choose from one single frame to five frames. Combine the features that will keep you entertained!

Just 4 steps in the configurator:

At each step of the configurator, you choose, for example, the installation method, the size or design of the frame (e.g. glass, wood, metal), the wall colour/type and the type of speakers (wall, ceiling, ...). The result delivers an overview and estimated total cost. You can place the order here directly or send it by email.

LOGUS⁹⁰

BASE

Smart finish. Discrete shape of function.

Dimensions: 85.6 x 85.6 mm

BR - White

MF - Ivory

AQUARELLA

Distinct colors. Shades that characterize the space.

Dimensions: 85.6 x 85.6 mm

GE - Ice

PE - Pearl

AL - Aluminium

IS - Gray

PM - Black

DU - Gold

ANIMATO

Large selection of colors, modern design and pleasant price.

Dimensions: 94 x 94 mm

BB - White/White

MM - Ivory/
Ivory

EE - Ice/Ice

PP - Pearl/Pearl

RG - Yellow/Ice

DG - Green/Ice

ZG - Blue/Ice

GG - Granite/Ice

GP - Granite/Pearl

GA - Granite/Aluminium

GS - Granite/Gray

The MEC21 Series Mechanisms for the LOGUS⁹⁰ Design Series are made of a special alloy of non-combustible plastics that, due to their strength and elasticity, prevent destruction or damage to the body. The plastic design of the mechanism also ensures secure isolation from the conductive parts of the installation.

The mounting frame is an integral part of the device. The whole device is compact, lightweight and allows for easy and quick assembly without the use of tools.

With the "smart clips" on the front of the device, the frame and cover can be easily snapped on and off. It can be easily and quickly changed and adapted to the current colours of the walls of your interior.

10A - 250V~ - Screwless connection
16A / 20A - 250V~ - Connection with screw terminals

Quick Clips allow installation to adjust the frame on an uneven wall (two positions for the "snap" frame). Inequality walls will allow the deal and Floating Fingerboard.

Ability to test electrical functionality of your device without disassembly.

Shaped edge of the body mechanism to align the mounting multiple devices.

Depth 20 mm only allows mounting to instrumentation device / box.

Screwless terminals provide fast and quality connection without need of instrument usage. Double terminals on every pole provide multiple connection without need of extra terminals usage.

Ability to test electrical functionality of your device without disassembly.

Order example

MECHANISM MEC21

oder code: 21 ...
e.g.:
21011 = Single Pole Switch
21111 = Earth Socket

FRAME

oder code: 909 ... T x x
e.g.:
90910 TBR = Single Frame, plastic/white
90930 TCS = Triple Frame, cristal/gray

ROCKER / COVER PLATE

oder code: 90 ... T x x
e.g.:
90601 TBR = kRocker for Switches, white
90652 TAL = Safety Cover Plate for Earth Socke, aluminium

COMPLETE PRODUCT

oder code: ...
e.g.:
21011, 90910 TBR, 90601 TBR
Mechanism, Frame, Rocker / Cover Plate

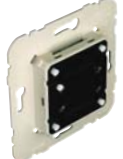

The entire design series are available from 1 frame up to 4 frames.

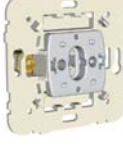

The BASE and AQUARELLA series are available from 1 frame up to 5 frames.

Horizontal or vertical position of the frame is possible thanks to their symmetrical shape.

Device covers in red, orange, green for hospital environments.

Motion detector (NO+NC)

Motion Detector - 1000W (Order code 21401/45401 S)
Motion Detector - 400W (Order code 21402/45402 S)

Controls the connection of electrical circuits according to the detection of motion and surrounding luminosity. Compatible with any electrical load. Wall mounting.

Technical parameters	Order code 21401/45401 S	Order code 21402/45402 S
Voltage range:	230 V~ - 50/60 Hz	
Consumption:	1 W	
Max. Light load:	1000 W	400 W
Sensitivity regulation:	√	
Operating time regulation:	5 sek. to 5 min.	
Range of detection:	8 m	
Detection angle:	160°	
Outputs:	NO / NC	

NB: NO - normally open; NC - normally closed.

• Operatin

1. Remove the cover of the mechanism to reach the adjustments potentiometers.
2. Proceed to make the necessary adjustments.

• Connection

Dimmer

Electronic Dimmer/Two-way Switch - 320W R, C (Order code 21212)

Allows to adjust the luminous flux of one or more lamps.

• Connection

Electronic Dimmer/Two-way Switch

Two-way dimmer

Technical parameters	Order code 21212
Maximum load:	320 W
Minimum load:	5 W
Two-way function	
Switches:	√
Minimum intensity setting:	*
Fuse:	—
Bulbs:	√
Halogen lamps, 230 V ~:	√
Halogen lamps with ferromagnetic transformer:	—
Halogen lamps with electronic transformer:	√

Note: * - automatic setting

• Settings

Turn the potentiometer to adjust the intensity of the lamp or group of luminaires.
 By pressing the button, the switch switches to the two-way dimmer function.
 Check voltage on the bottom edge.
 (Order code 21212)

Digital Time Switch

One Circuit Digital Time Switch (Order code 21041)
Two Circuits Digital Time Switch (Order code 21042)

The Digital Time Switch allows to control an installation or equipment according to daily or weekly programmed schedule. Includes capacity for 24 different program settings. Automatic Winter-Summer official time adjustment and possibility of programming a period of inactivity (holidays).

Technical parameters	Order code 21041	Order code 21042
Voltage range:	230 V / 50 Hz	
Power consumption:	1 W	
Breaking capacity:	6 A	6 A + 6 A
Programming accuracy:	1 s.	
Operating accuracy:	< 1 s / day	
Memory capacity:	32	
Output type:	ON - OFF - Pulz (1 to 59 s)	
Outputs:	NO and NC	2 NO and 2 NC
Block function:	√	
Backup battery:	√	

NB: NO - normally open; NC - normally closed.

• Connection

• Settings

C1 - Manual Channel 1, Decrease - Move down (in the menu)
 C2 - Manual mode channel 2, Increase value - Go up in the menu
 OK / Menu - Start Menu / Confirm Selection
 STANDBY - Stop programming

Programmable Chronothermostat

Programmable Chronothermostat (Order code 21232/45232 S)

It allows to control manually or automatically the heating/cooling system in accordance with a daily/weekly programming and with preprogrammed temperatures.
 Automatic winter/summer time change.
 Possibility of programming a period of inactivity (holidays).

Technical parameters	Order code 21232/45232 S	Order code 21233/45233 S
Voltage range:	230 V / 50 Hz	
Consumption:	1 W	
Breaking capacity:	16 A	
Adjustable:	√	—
Sensitivity:	1 °C	
Range of temperatures readings:	0 to 35°C	
Timer:	—	15 to 90 min
Holiday program:	√	—
IR remote control:	—	√
Non-voltage contacts:	√	
Memory Backup Time:	3 h	

• Settings (Order code 21232/45232 S)

▼ - Decline in values. Movements within the menu. Minimum temperature options. Manual switch to minimum temperature
 ▲ - The rise in values. Movements within the menu. Choosing the maximum temperature. Manual switch to maximum temperature
 C - Input Confirmation / Menu Access
 OK - Wiring / connecting the device. Delete action

Thermostat with Infrared Remote Control

Thermostat with Infrared Remote Control (Order code 21233/45233 S)

Allows to control the heating or cooling system in accordance with the required temperature. Possibility of connecting the Floor Temperature Sensor, with automatic self detection. Possibility to be controlled by the Infrared Remote Control Transmitter.

• Connection

• Settings (Order code 21233/45233 S)

▼ - Temperature drop. Drop in values
 ▲ - Temperature rise. The rise of values
 TIMER - ON / OFF function and timer

Electrical Blinds Control

General Blinds Control Module with Infrared Remote Control
(Order code 21311/45311 S)

They allow manually or automatically, the general or individual control of blinds, according to the programmed schedule or the surroundings conditions (luminosity, wind, etc.), measured by associated sensors. Local control of blinds. Possibility to be controlled by the Infrared Remote Control Transmitter for Blinds.

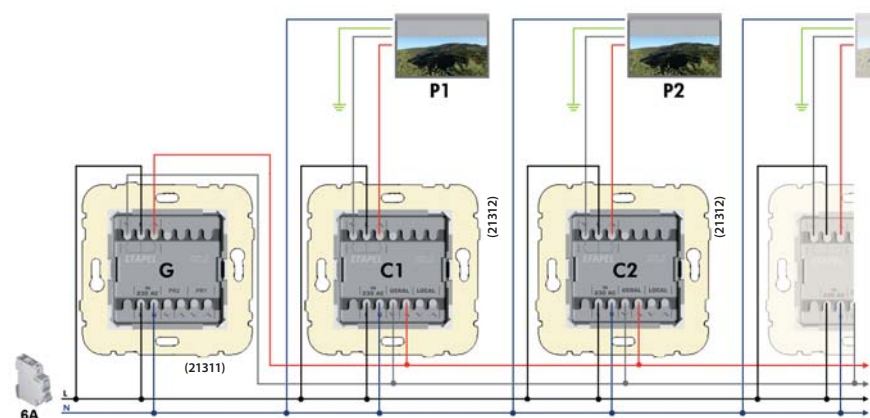

Local Blinds Control Module with Infrared Remote Control
(Order code 21312/45312 S)

Individual control of blinds. Possibility to be controlled by the Infrared Remote Control Transmitter for Blinds Control or by the Infrared Remote Control Transmitter Multifunctions.

Technical parameters	Order code 21311/45311 S	Order code 21312/45312 S
Voltage range:	230 V / 50 Hz	
Consumption:	1 W	
Load capacity:	6 A (1380 W, cos φ =1)	
Programming:	2 functions (up and down)	—
Backup battery:	24 h	—
Function:	Standby	—
Infrared Remote Control Transmitter:	√

Electrical Blinds Control

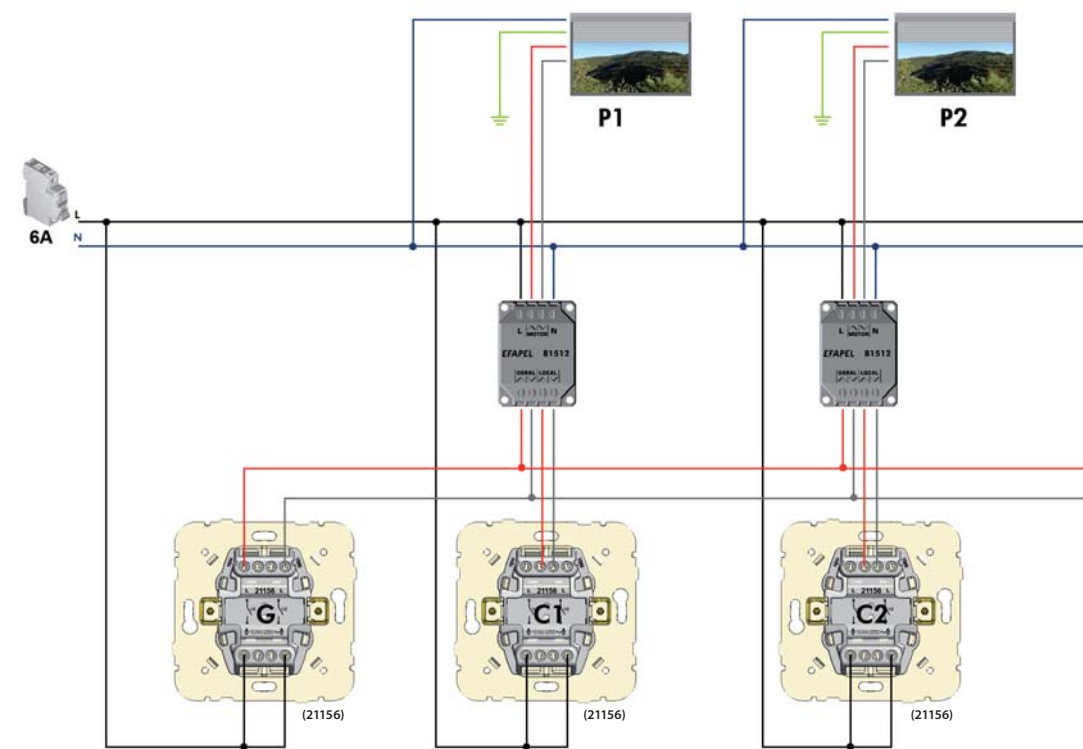

Automatic Relay for Blinds Control (Order code 81512)

Allows to control the individual and general control of a set of blinds.
Can be installed into a standard wall box, in the derivation boxes near the blinds or in deep wall boxes and behind the wiring devices installed in the same box.

Technical parameters	Order code 81512
Voltage range:	230 V / 50 Hz
Consumption:	1 W
Load capacity:	6 A (1380 W, cos φ =1)
Opening and closing time:	90 s
Electrical blockage:	√
Dimensions (H x W x D):	48 x 36.3 x 24 mm

• Wiring Diagram

Blinds Centralized Installation - with Automatic relayS for blinds control (Ref. 81512)

P1, P2 – blinds
G (21156) - main module
C1, C2.. (21156) - local module

Note: The protection against two simultaneous orders of open or close applied in the same device or different devices, is guaranteed by the software of the relay.

• Automatic Relay for Blinds Control (Ref. 81512)

Terminal

- ▼ Output for motor - Down
- ▲ Output for motor - Up
- L Phase
- N Neutral
- ▼ Signal input for central control - Down
- ▲ Signal input for central control - Up
- ▼ Signal input for local control - Down
- ▲ Signal input for local control - Up

Electrical Blinds Control

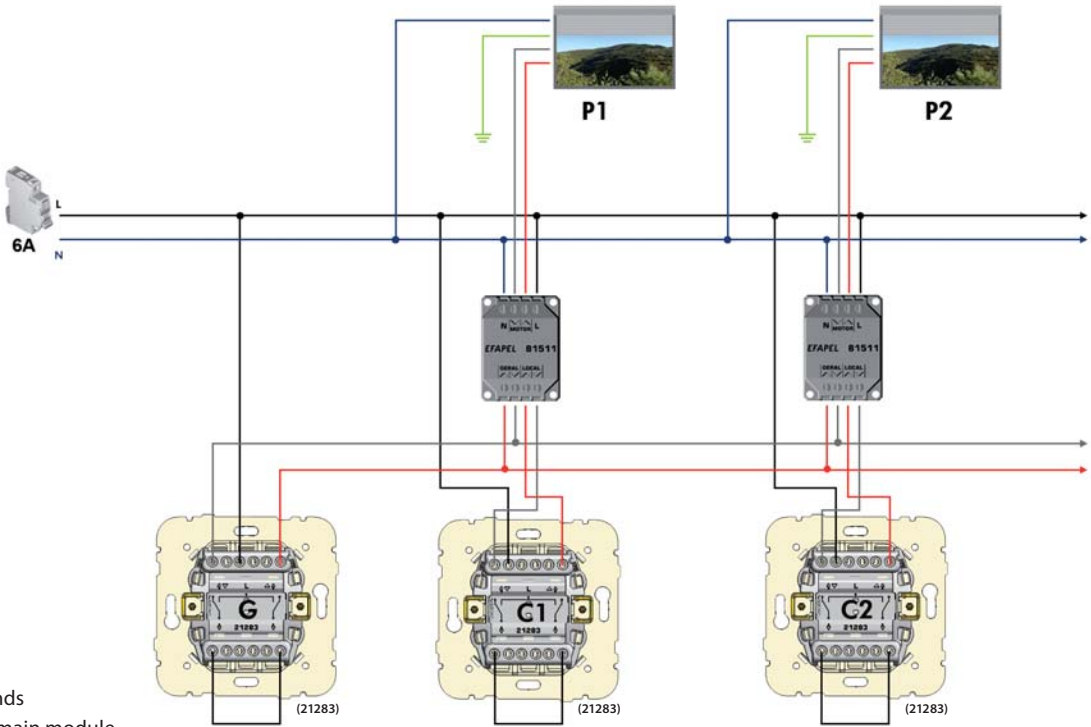

Relay for Blinds Control (Order code 81511)

Allows the individual and general control of a set of blinds.
Can be installed into a standard wall box, in the derivation boxes near the blinds or in deep wall boxes and behind the wiring devices installed in the same box.

Technical parameters	Order code 81511
Voltage range:	230 V / 50 Hz
Consumption:	1 W
Load capacity:	6 A (1380 W, cos φ = 1)
Opening and closing time:	90 s
Electrical blockage:	x*
Dimensions (H x W x D):	48 x 36.3 x 24 mm

* Electrical blockage: with the Relay for Blinds Control, the electrical blockage (protection against two simultaneous orders) is guaranteed by the association of the Relay for Blinds Control with the Venetian Double Push-button for Multiple Points Blinds Control (Ref. 21283 / 45283 S).

• Wiring Diagram
Blinds Centralized Installation - with RELAYS for BLINDS CONTROL (Ref. 81511)

P1, P2 – blinds
G (21283) - main module
C1, C2.. (21283) - local module

Notes: The protection against two simultaneous opening and close orders in the same device or different devices is guaranteed by the combination of the mechanism (Ref. 21283 / 45283 S) and the relay (Ref. 81511). For this reason, this relay works only with the mentioned mechanism.

• Functions (Order code 81511)

- Terminal

USB Charger

USB sockets - 2100 mA - Allows portable devices (smartphones, tablets, MP3, etc.) to be charged.

Mechanism: **QUADRO 45**

Compatible with: LOGUS⁹⁰

Using the X0881 T adapter of each series.

Technical parameters	Order code 45439
Voltage / Frequency:	100~240 V / AC 50~60 Hz
Output voltage:	DC 5 V ±3%
Output current:	0~2100 mA
Maximum Output Power:	10.5 W Max.
Efficiency:	78 %
Standby power consumption:	0.2 W Max.
Insulation resistance:	500 V DC/100 MΩ

• Connection

Note:
It is recommended to install this plug as a terminal device in the circuit.

Jazz Light series

At home, in the office or in public areas, it gives you a feeling of comfort and well-being...

The **Jazz Light Series** features a variety of components for the Surround Sound application in buildings, offices, apartments, houses and shopping centres.

Thanks to its new central audio modulation units and sound control units, it is possible to simplify the installation and use of the Surround Sound System itself.

The Efel Company **Jazz Light** sound system lets you listen to your favourite music comfortably anywhere in your house and control it according to your needs.

Listen to what you want: you can tune in directly to your favourite radio, or if you prefer your own music selection, you can connect to another source (MP3 player, PC, TV, mobile phone) thanks to the additional input. So you can enjoy your favourite music, movie or live concert on TV, etc. with the best sound quality.

Experience music where you want and want: Enjoy great music, movie or concert in your living room as loud as you really like it!

Production of the new **Jazz Light Series** are part of the LOGUS⁹⁰ design series and offer a wide range of options to decorate and customise your area.

WATERPROOF 48

series

EFAPEL with the series **Waterproof 48** is the right choice for "any terrain" when performing an electrical installation in a moist or dusty environment.

Thanks to IP65 protection and use of thermoplastic with high resistance to weather conditions, the **Waterproof 48** series represents the best solution for installations in industrial areas, garages and gardens.

It is produced in the traditional color gray – RAL 7035 – and in white – RAL 9003, which are colors used in EFAPEL technical cable trunkings.

The series **Waterproof 48** has 34 functions; these can be mounted in simple or double bases and in vertical or horizontal positions.

LARA... player in the switch

Radio / Music / Intercom / Videophone / Audiozone

LARA Radio

- LARA Radio is a music and internet radio player - the size of a circuit breaker, in the LOGUS⁹⁰ design (metal, wood, metal ...).
- LARA is used for example in the kitchen, bathrooms, waiting rooms, offices, receptions, entrance halls, operating rooms or wellness areas.
- LARA can play a radio stream and can store as many as 40 in connection with the internet. However, these can be selected from thousands of stations around the world that provide the correct connection data.
- LARA Radio can play the content of an external music source, for example, such as an iPhone, a smart phone, or an MP3 player. These devices are plugged into a 3.5 mm stereo audio jack input that is located at the bottom of the front panel.
- LARA Radio also plays audio files from the central data repository in which the Logitech Media Server is installed. When using with NAS, LARA NAS App is available.
- Operation is done by touching the front panel or infrared remote (included with the product package).
- LARA Radio is equipped with a 1.5 "OLED colour display (basic music playback information, setup menu orientation, etc.).
- LARA Radio has an integrated 2x10W amplifier, making it very easy to install the device in areas where the power is sufficient.
- LARA Radio is powered by PoE with a maximum voltage level of 27 V DC / 1000 mA. The advantage is one cable (UTP) for power and communication.

LARA Intercom

- Not only is LARA your radio and music player, but it is also an INTERCOM, VIDEOTELEPHONE and /or AUDIOZONE.
- LARA Intercom is suitable for installation in both residential and commercial buildings.
- INTERCOM allows bidirectional communication between people in the house, up to 8 LARA devices can communicate directly between them.
- In the case of a 2N IP installation (which has an integrated Asterisk disk), Intercom can be used not only between LARA devices but also among smartphones (with iHC-MA, iHC-MI installed).
- VIDEOTELEPHONE allows you to communicate with 2N and ALPHATECH TECHNOLOGIES (IP BOLD) IP from which LARA transmits picture and sound. If you are not at home, the call is automatically redirected to your smartphone.
- You can connect 6 LARA + 2 IP Phones (or combine them with up to 8 accounts in different ways). Once you have connected a "Connection server," you can use up to 30 LARA devices (combined with IP-speakers) in the installation, which is especially suitable for larger installations (buildings, apartment buildings).
- AUDIOZONE, which allows you to play your music in any area in the house.
- LARA Intercom also plays back audio files from the central data repository in which the Logitech Media Server is installed. This feature of LARA can be used within a comprehensive iNELS system or as a device completely independent of house automation. When used within iNELS, the control is part of a comprehensive iHC application. When using with NAS, LARA NAS App is available.

Intercom & Videophone

LARA allows you to communicate across the house (Intercom) as well as the door-to-door with the door phone (Videophone).

Up to 30 devices (LARA, phone, tablet ...) can be connected to the system. LARA can communicate with you outside of the house - all you need is an internet connection.

Installation

Flush mounting

The LARA device can be installed in an installation box (along with switches), in a design from one to five frames. This installation is recommended in places where at least one installation box is installed or in a place with hollow walls.

Surface mounting

Surface mounting enables installing the LARA device in places where structural modifications are impossible or difficult to perform. The box is designed for one frame only with selection of installations of external speakers mounted on walls or ceiling.

Accessories

AUX CABLE LARA (LARA CINCH CABLE)
Used to connect LARA with exter. amplifier. Reduction 4pin from LARA LINE OUT to 2x CINCH plug into amplifier, length 2x20 cm.

5208

LARA PoE POWER ADAPTER
PoE power for one LARA.

6191

LARA SPEAKER CABLE
Patch cable LARA - speaker.

5209

WIFI BRIDGE
Used for LARA wireless connection via WiFi network.

5210

AUX CABLE LARA (LARA AUDIO CABLE)
Used to connect LARA with external music source (smartphone, mp3 player). Length 20cm terminated with 2x stereo jack 3.5mm.

6704

POWER SUPPLY (PSB-10-24)
Switching stabilized power supplies with fixed output voltage, intended for mounting into an installation box (e.g. KU-68). PSB-10-24 - stabilized power supply 24V/10 W.

4378

PoE SWITCH
Provides LAN connectivity and PoE power supply for up to 5 x LARA. Power supply AC 230 V.

6605

NAS EXTERNAL STORAGE
Two-chamber NAS server with the function of hosting, sharing and data security.

7212

- The wireless controller is used to control switches and dimmers (lights, gate, garage door, blinds, etc.).
- **RFBW-20/G:** two buttons enable control of two units independently.
- **RFBW-40/G:** four buttons enable control of four units independently.
- The flat design with level base makes it ideal for fast installation on any surface (fixation with adhesive or screws in the installation box).
- When pressing the button, it sends a set signal (ON/OFF, dimming, time switching OFF / ON, blinds up/down).
- Sending a command is indicated by a red LED.
- In LOGUS⁹⁰ switch frame design (plastic, glass, wood, metal, stone).
- Option of setting light scenes, where with a single press, you can control units of iNELS RF Control.
- Battery power supply (3 V / CR2032 - included in the supply) with battery life of around 5 years based on frequency of use.
- Range up to 200 m (in open space), if the signal is insufficient between the controller and unit, use the signal repeater RFRP-20 or protocol component RFIO² that support this feature.
- Communication frequency with bidirectional protocol iNELS RF Control.

Examples of placement

LOGUS⁹⁰

We bring you switches, sockets and accessories in standard, plastic or metallic design, but you will be impressed most by enchanting luxury design of purely natural frames: real wood, metal, granite and tempered glass - crystal

On wall

On wood

On glass

Flat design – the depth of the device is only 20 mm!

- The wireless controller in design LOGUS⁹⁰ measures the room temperature by internal sensor, and based on the set temperature, it sends a command for heating / cooling.
- Option of setting a daily/weekly automatic control program.
- The temperature controller can be used in one of two ways:
 - For controlling an additional heat source (heater, oil radiator, radiant panel) with multi-function switching units RFSA-6x, RFUS-61 or RFSC-61.
 - For control of floor heating, when the internal sensor scans the room temperature, and based on the value, controls the heating unit RFSTI-11B, which monitors the critical floor value by external sensor.
- Manual control by buttons on the unit.
- Range of measured temperature 0-55 °C.
- The backlit LCD display displays the current and set temperature, status (ON/OFF), battery status, day of the week, current time, etc.
- Battery power (1.5 V / 2x AAA - included in supply) with battery life of around 1 year based on frequency of use.
- The flat rear side of the device enables its placement anywhere in the room where you wish to measure temperature.
- Range up to 100 m (in open space), if the signal is insufficient between the controller and unit, use the signal repeater RFRP-20 or protocol component RFIO² that support this feature.
- Communication frequency with bidirectional protocol iNELS RF Control.
- Color combination of temperature unit in design of frames LOGUS⁹⁰ (plastic, glass, wood, metal, stone).
