

RFWD-100 | Window / Door detector

- The window / door detector is used to detect opening where activation occurs when the magnet and the sensor become separated.
- Use:
 - in combination with the switching unit for automatic light control (cellar, garage, etc.), or switching on a GSM gate
 - by means of the Smart RF box, detection can be displayed on your smart phone in the form of a notification; alarms are stored in the history, which is visualized in the application iHC.
- Anti-tamper function: an alarm is triggered if there is an unauthorized interference to detector.
- Power supply: battery 3 V / CR2032, the battery life is around 1 year, ... thanks to the ability to turn off the LED indicator it is possible to extend up to 3 years.
- “Low Battery” Alerts on Your iHC App.
- The detectors are compatible with switching components marked with the iNELS RF Control² RFIO² communication protocol and the eLAN-RF system components.
- Communication frequency with bidirectional protocol iNELS RF Control² (RFIO²).

Technical parameters	RFWD-100
Power supply:	battery 1x 3 V CR2032
Drained battery indicator:	yes
Transmission frequency:	866 MHz, 868 MHz, 916 MHz
Communication protocol:	iNELS RF Control ² (RFIO ²)
Working temperature:	-10.. +50°C
Protection:	IP20
Color:	white
Dimension:	25 x 75 x 16 mm / 15 x 75 x 14 mm
